

MICHELIN XZY 3

ALL POSITION TUBE TYPE TYRE
FOR ON/OFF ROAD OPERATIONS

MICHELIN XZY 3

ALL POSITION
TUBE TYPE TYRE
FOR ON/OFF ROAD
OPERATIONS

More usage flexibility for On and Off road conditions thanks to robust flat large tread blocks which give more traction and well-designed center rib for better vehicle handling.

Improved resistance to tread cutting and chipping due to Michelin on/off specific compound.

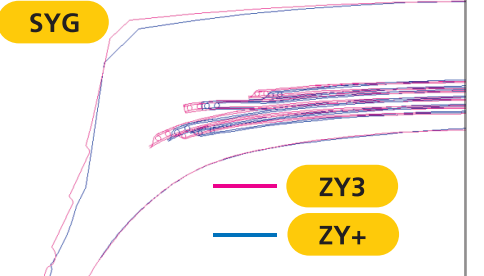

Up to 10%* additional mileage through wider tread contact area, tread depth increase and more rubber on contact area.

Maximized crown performance and reduced separation damage through new cooler compound and thicker rubber at shoulder area.

Optimized casing strength against impact, puncture and cut damage plus increased retreadability, thanks to steel belt package on crown.

Sidewall strength boosted from straight and reinforced sidewall profile and +10% rubber thickness.

* compared to XZY
