

MICHELIN

12.00 R 20 XZY3 TL

► All axles, on the site and on the road

12.00 R 20 XZY3 TL

All axles

Outstanding off road capacity combined with clearly improved on road qualities add up to a truly **optimised performance.**

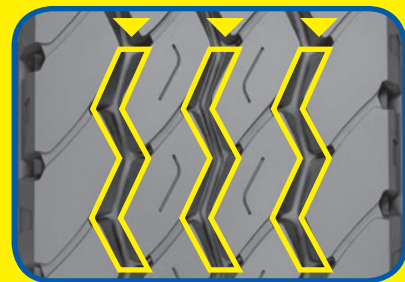

Tubeless tyre which may be fitted with a tube.

HIGHER MILEAGE

- ▶ New tread pattern increase mileage by on average 15% for on road use compared to XZY and XZY2.
- ▶ Tread band 8 mm wider than XZY.

IMPROVED RESISTANCE TO CROWN AND SIDEWALL AGGRESSIONS AND BETTER RETREADING

- ▶ Pattern with 4 ribs and 3 grooves for a robust tread.
- ▶ More even wear when running on the road* thanks to semi continuous shoulders optimises the compromise even wear / resistance to aggressions. (*in comparison with the current XZY and XZY2)
- ▶ Robust casing allows usually at least 2 retreads.

SECURITY IN ALL CONDITIONS

- ▶ Longitudinal grooves give good steering in the wet or in the mud.
- ▶ Semi in-line tread and offset blocks provide a good level of comfort and driving precision.
